FYI, I've asked David Alluntt to help manage the records/communications. You can read the exchange below.

Also, I'd like to talk about the project management need, which Rick and I will discuss on Monday. I think we also need to be clear on what Bill's role is on this issue.

Is this the kind of conversation that would better be done in person v. Email? Just wondering...

That's all you got?!?!?!

Thanks, Patty for all of this.

My thought is that this is a lot of info to cover; what should be our four or five top questions? what should be our four or five top requests for data?

Ex. 5 - Deliberative

So, anyway, for tomorrow, I think we need to need to be consistent in our approach in addressing concerns with these guys - and that's why a "Top-ten" list from the amazing work you did below would be terrific.

And then we'll make Szerlog ask all the questions...

Thanks again - B.

DELIBERATIVE - DO NOT RELEASE

Bill -

Since I can't be at the meeting tomorrow, you asked me for comments/questions on the materials that TU might present tomorrow. Below are my thoughts on the mining-related information. **Ex. 5 - Deliberative**

Ex. 5 - Deliberative

I will miss the BB meeting next Wednesday since I have a National Mining Team meeting on that day. So, I'll catch up with you and others later regarding the presentation.

"Water Quality and Hydrologic Issues Related to the Pebble Mine", Stratus powerpoint presentation

This presentation draws heavily on the report prepared by Jim Kuipers and Ann Maest for Earthworks, entitled "Comparison of Predicted and Actual Water Quality at U.S. Hardrock Mines", aka "The Comparisons Report". The purpose was to compare EIS predictions to actual water quality for 25 mines. I was a peer reviewer of that report
